

Candlelight

Manizha

Stone cold grey empty room
Used to be filled with life
Home to a flickering light
Will you try to find what love left behind
The dust of resistance
Dreams of the innocent

Don't forget who you were
Before this dark night
Don't let this evil
Rule your head and heart

And even if your hands are tied
No one can shut your mind
Even if your hands are tied
No one can shut your mind
Hope is like candlelight
As long as you're still alive
No one can take this light away

The way you light up the world
God do we need it now
Please, don't give up on us

Don't let this evil
Rule your head and heart

And even if your hands are tied
No one can shut your mind
Even if your hands are tied
No one can shut your mind
Hope is like candlelight
As long as you're still alive
No one can take this light away

No rain, no rain, no hurricane
Can get your fire
Your internal flame
When we come together
In the chaos of doubt
We make such a beautiful sound

No rain, no rain, no hurricane
Can get your fire
Your internal flame
When we come together
In the chaos of doubt
We make such a beautiful sound
