

Little Lady

Manizha

Hey little lady, hey little lady he is not your man
He's gonna make you, he's gonna make you
He's gonna make you sad
Hey little lady, hey little lady he is a grown man
You should forget him, you should forget him
You should forget his name

Oh, my, my
What I'm gonna do
With my mind
I am such a fool
I'll remember how you use to tell me that

'Cause being alone's the only way to be
Being alone's the only way to be
Being alone's the only way to be
'Cause being alone's the only way to be

Hey little lady, hey little lady he is not your man
He's gonna make you, he's gonna make you
He's gonna make you sad
You should forget him, you should forget him
You should forget his name
Hey little lady, hey little lady use your Goddamn brain

Ooh, la, la, you're gorgeous, that's a fact
Ooh, la, la, have some self respect
Have some self respect
'Cause on your own's the only way to be
On you own's the only way to be
On you own's the only way to be
On you own's the only way to be

Hey little lady, hey little lady he is not your man
Hey little lady, hey little lady he is not your man
He's gonna make you, he's gonna make you
He's gonna make you sick
Hey little lady, hey little lady use your Goddamn brain
You should forget him, you should forget him
You should forget his name

Hey little lady, hey little lady he is not your man
He's gonna make you, he's gonna make you
He's gonna make you sad
You should forget him, you should forget him
You should forget his name
Hey little lady, hey little lady use your Goddamn brain
