

# The Rapture

## Mankind Is Obsolete

Step back just a moment  
To tell you all my sins  
Step back just a moment  
To let it all in  
And tell me, father,  
Will I see the truth in all my ways?  
If what was not  
Was always there  
Was willing me to stray

Reinvent me  
Control me now  
To feed me your lies  
End my will here  
I am here to serve this purpose  
Consecrate this  
This metamorph is now completed  
Worship me now  
Its not belief that really matters

Living in this fear of hell  
It keeps me here  
This is what youve raised  
My filth and your decay  
Give me all the answers  
Give me security  
Love is just a simple word  
For what you feed from me

Lost in your world  
Lost in my mind  
Lost and still alive

Reinvent me  
Control me now  
To feed me your lies  
End my will here  
I am here to serve this purpose  
Consecrate this  
This metamorph is now completed  
Worship me now  
Its not belief that really matters

Lost in your world  
Lost in my mind  
Lost from this life

Reinvent me  
Control me now  
To feed me your lies  
End my will here  
I am here to serve this purpose  
Consecrate this  
This metamorph is now completed  
Worship me now  
Its not belief that really matters

Reinvent me  
Reinvent me  
Consecrate this now
