

Hi -)

Mann

Thinking
Contemplating the meaning
Of what It means to really be alive so I'm smoking weed and I'm drinking
And I don't even be sipping much but that double cup what that lean in
Po'ed up til I'm sleeping
Woke up but still dreaming
Euphoria, Euohoria
If that's what it is, I fuck with it
Some people wish to get high as me
That's the last thing on they bucket list
Fuck suffering
I live the life I want to live
Fuck a 9 to 5, who trying to get high
And be creative on some other shit

Forget your job turn it up
Get the weed burn it up
That fuck shit ain't concerning us
Peace life yeah you heard of us
Without a doubt we showing up with more than enough to get by
Put your lighters up and get high, Yeah
I'm high, Yeah

Eyes low I'm faded
What I smokes amazing
OG my favorite
It was an edible so I ate it
Medical so I ain't sick
Doctor said I'm a patient
Get them cooks from my bay bitch
Them players speaking my language
Them square don't understand shit
But it's cool I don't expect em to
Everything happens on it's own time I know I'm on schedule
Team set up so I'll never lose
Spear heading a revolu
Follow Mann what you better do
Show u a life you never knew

This OG is amazing
Passenger is Caucasian
Trying to ride on my spaceship
But the journey here isn't the destination
Reality is just a speculation, Awe yeah
We got medication, meditation, preparation for penetration
Get the weed burn it up
Hit the bed hurry up
Hit it from the side shawty think she had a hernia
And I think you know what I'm insinuating
I got a big ego, and you can hit me up for your demonstration girl
