

Rabbit Hole

Mann

Neon lights, neon life...
Our love is eternal.
In your eyes, I see my soul.
You love the way I glow.
Let's chase that rabbit... (rabbit)

Uh... let's hop on it,
Young and live in the moment.
Get on this rollercoaster and ride this bitch like it's stolen.
Now it's potent, she rollin', and in my pocket's a Trojan.
We smoke and fuck, then she floatin'
Off the motion, the ocean.
We pop us a couple caps, contemplate 'bout society.
That's all I ever ask
Someone to talk and get high with me,
Ride with me, and provide for me.
Let's go cop us a property,
Drop out and live in privacy.
Start a garden or forest,
Give it up to the Lord.
The Universe working for us,
Let's explore it, no Dora.
Love is what's most important.
Oh, how quickly we forget.
I remember getting in the booth and recording.

Lost in the neon lights,
Beyond death, beyond life
We all day, we all night
Let's chase that rabbit... (rabbit)
Let's chase that rabbit... (rabbit)

Awh, come on
Our love is eternal
In your eyes, I see my soul
And you love the way I glow
Let's chase that rabbit... (rabbit)
Down the rabbit hole

Uh, put the herb in the rolling paper
Puff on the Magic Dragon,
See where the magic take us
Let's be creative in space of imagination
Let's fuck this place up, move somethin'
Don't be complacent, lil Mama
Body's a temple,
I'm repentant, I'm prayin'
Come and fuck with a real one
Girl, you need to stop playin'
See my chance, I'ma take it
Which drug is your favorite?
I just cover the bases
Oh my, I love when you're naked
Ain't a club but we dancin'
Outside when it's raining
Inside, romancin'
We have a private agreement

We vibe for a reason
Let's ride with the seasons
No fear, we defeat 'em
We know I got what you need, baby

Lost in the neon lights,
Beyond death, beyond life
We all day, we all night
Let's chase that rabbit... (rabbit)
Let's chase that rabbit... (rabbit)

Awh, come on
Our love is eternal
In your eyes, I see my soul
And you love the way I glow
Let's chase that rabbit... (rabbit)
Down the rabbit hole

And what better than California
Want a vacation?
Come down where the weather's warmer
One stop station, paradise for a stoner
Got ounces of psilocybin, got pounds of that marijuana
Since I left Sedona, been traveling in my conscious
And Implement the peace and I got everyone I'm involved with
I got a question, you an astrology Momma?
I'm a Cancer, when I'm with you, it's the Summer

Come on,
Lost in the neon lights,
Beyond death, beyond life
We all day, we all night
Let's chase that rabbit... (rabbit)
Let's chase that rabbit... (rabbit)

Our love is eternal
In your eyes, I see my soul
And you love the way I glow
Let's chase that rabbit... (rabbit)
Down the rabbit hole
