

Wanna Go Back

Mann

I'm a '90s baby (I wanna go back)
Yeah, I wanna go back in the days
Way back in the days (I wanna go back, yeah)

I wanna go back to the day
When the party off the chain
Bring your lady on the floor
Spin around, dip her back, don't fall
Let's take a trip to way back when
The DJ wouldn't have to spin
'Cause all they would scream all night
"We dance, nobody fight"

I'm a '90s baby but I wanna go back
'Cause these times was crazy
When girls rocked the Brandy braids
Skip the S, girl, and rock the fave
Back in the day, everything was wavy
When rap was still new wave back in the '80s
Cool J to N.W.A, everybody say (I wanna go back, yeah)
Yeah, kickin' back, tapping my talks
Chillin' and thinking 'bout hogs and hey
Stay fresh from my snapback to the bottom of my J's

Tell me where the party is, you could be the start of it
I wanna be a part of it, good girl, you mighty fine
Girl, you know your body right, I hope that you the '90 type
Shawty, we could party like it's 1999

I wanna go back to the day
When the party off the chain
Bring your lady on the floor
Spin around, dip her back, don't fall
Let's take a trip to way back when
The DJ wouldn't have to spin
'Cause all they would scream all night
"We dance, nobody fight"

Young boy, but I'm doing big things
Throw back, now we rock big chains
It's strange, it came back full circle like a boomerang
Girls rocking bright ties thinking it's hot
Thinking they original but trust me, it's not
My mom got a pair in the closet up top
She saying, "I wanna go back, yeah"
I love how people say that times are changing
Bet you would change for the right occasion
I don't really know how much time's remaining
But won't let that in the feel with the dream I'm chasing

Tell me where the party is, you could be the start of it
I wanna be a part of it, good girl, you mighty fine
Girl, you know your body right, I hope that you the '90 type
Shawty, we could party like it's 1999

I wanna go back to the day
When the party off the chain

Bring your lady on the floor
Spin around, dip her back, don't fall
Let's take a trip to way back when
The DJ wouldn't have to spin
'Cause all they would scream all night
"We dance, nobody fight"

Can't you feel your twisted ways
Let your body rock the place
Throw your hands up in the air
Tell your friends we're going there
I wanna go back, I wanna go back (Yeah)
I wanna go back, I wanna go back (Yeah)

I wanna go back to the day
When the music was off the plate
The piano in the raw
They danced like there's no tomorrow
Let's take a trip to way back when
The DJ wouldn't have to spin
'Cause all they would scream all night
"We dance, nobody fight"
