

# Immortal

Manowar

Brothers one and all fight hear the call  
Here we ride death is all we bring  
Brothers onwards sail, immortal victory hail  
Into glory ride by the blood of kings

Side by side never fail  
Immortal victory hail  
None left standing in our way  
Immortal victory today

Honor calls the brave of righteous will be saved  
All the rest shall die their blood will be our ride  
Thunderstrike blood shall rain  
Bone will break with fearsome pain  
When black arrows fly the end will shake the sky

Side by side never fail  
Immortal victory hail  
None left standing in our way  
Immortal victory today

Fly into the sun on golden wings  
Recall thy pledge we sons of kings  
The final sunrise eternity into thy hands  
My sword and soul all that I am all that I feel  
Now is the time return to the kingdom of Steel

Side by side never fail  
Immortal victory hail  
None left standing in our way  
Immortal victory today

Side by side never fail  
Immortal victory hail  
None left standing in our way  
Immortal victory today

Side by side never fail  
Immortal victory hail  
None left standing in our way  
Immortal victory today

Side by side never fail  
Immortal victory hail  
None left standing in our way  
Immortal victory today
