

Master of the wind

Manowar

E **Emi**

In the silence of the darkness

D **Emi**

when all are fast asleep

E **Emi**

I live inside a dream calling to your spirit

D **Emi**

As a sail calls the wind, hear the angels sing

E **Emi**

Far beyond the sun across the western sky

D **Emi**

Reach into the blackness find a silver line

Emi

In a voice I whisper a candle in the night

D

We'll carry all our dreams

Emi

on a single beam of light

C **H** **C** **H**
R: Close your eyes, look into the dream

C **H** **C** **H**
Winds of change will winds of fortune bring

Emi **C** **G** **D**
R2: Fly away to a rainbow in the sky

Emi **C** **G** **H**
Gold is at the end for each of us to find

Emi **C**
There the road begins

G **D**
where another one will end

Emi **C**
Here the four winds know

H
who will break and who will bend

C **D** **Emi**
All to be the master of the wind

Emi
Falling stars now light my way

Dbass **Emi**
My life was written on the wind

Ebass **Emi**
Clouds above, clouds below

Dbass **Emi**
High ascends the dream within
When the wind fills the sky

Emi
The clouds will move aside

Dbass **Emi**
And there will be the road to all our dreams
And for any day that stings

Emi
Two better days it brings

D

Nothing is as bad as it seems
