

# Burning Stars

Måns Zelmerlöw

My dear  
Tonight it is so clear  
I wish we could lie here  
Where we are

We'll float  
Like we're in a big boat  
And watch while the sky snows  
Burning stars

We lost something in the city lights  
Some piece of our souls that we sacrificed  
But isn't it time  
We find ourselves tonight

Lately I've been thinking  
Feeling we were sinking  
Falling like these burning stars

Lately you've been drifting  
Far away from me, we're  
Flaming, fading, like we are  
Burning stars

Ooh, ooh, ooh, ooh, ooh

So still  
The night has gone so still  
I only hope you will  
Hear my heart

We lost something in the city lights  
Some piece of our souls that we sacrificed  
But isn't it time  
We find ourselves tonight

Lately I've been thinking  
Feeling we were sinking  
Falling like these burning stars

Lately you've been drifting  
Far away from me, we're  
Flaming, fading, like we are  
Burning stars

Lately I've been thinking  
Feeling we were sinking  
Falling like these burning stars

Lately you've been drifting  
Far away from me, we're  
Flaming, fading, like we are  
Burning stars  
Burning stars  
Burning stars
