

Careless

Måns Zelmerlöw

You're happy
Everybody's noticed
Yeah, I'm happy for you
Hurting should be temporary
Mine just multiplies when you smile at me, oh
Like you ain't got no mercy
Like you ain't got no memories
Talking like we're strangers
And that doesn't tear you up
I know this is how it is
And you can do whatever the hell you like
And I don't even want you back anyway

But one thing I can't get into my head is
How you acting like you couldn't care less
While I'm still losing hours over you, oh, you, oh
Don't know how you do it, don't know how you do it
And I'm jealous
How you acting like you couldn't care less
While I'm still downing bottles over you, oh, you, oh
Don't know how you do it, don't know how you do it
I wish I could care less

Are you happy?
Or are you just an actress?
I always said you're talented
And playing me for stupid
Were you ever in the game?
I don't believe we'll ever be friends
And you can do whatever the hell you like
Yeah, I didn't even want you to stay anyway

But one thing I can't get into my head is
How you acting like you couldn't care less (Couldn't care less)
While I'm still losing hours over you, oh, you, oh
Don't know how you do it, don't know how you do it
And I'm jealous
How you acting like you couldn't care less (Couldn't care less)
While I'm still downing bottles over you, oh, you, oh
Don't know how you do it, don't know how you do it

Oh, yeah, it fucks with my pride
That I'm one step behind and you're loving it
Yeah, you're loving it
Oh, yeah, it would be nice
If you would've cried just a little bit
And I know it's selfish
And you can tell your friends that I'm childish

But one thing I can't get into my head is (Head is)
How you acting like you couldn't care less (Couldn't care less)
While I'm still losing hours over you, oh, you, oh
Don't know how you do it, don't know how you do it
And I'm jealous (Jealous)
How you acting like you couldn't care less (Couldn't care less)
While I'm still downing bottles over you, oh, you, oh
Don't know how you do it, don't know how you do it

I wish I could care less
