

Children of the Sun

Måns Zelmerlöw

We were the children of the sun
No one outshone us
We knew tomorrow had to come
And lived for the moment

I remember you
From the nights I lay with you

Sail away, find the place
Where your heart belongs
Sail away
But I'll never let you go
Sail away and someday
When you miss someone
I am home
And I'll never let you go
Never let you go

Ooh-ooh-ooh-ooh-ooh

We were the victims of our love's
Terrible timing
There was too much to see and touch
I wasn't providing
I remember you
And I always feared when you'd

Sail away, find the place
Where your heart belongs
Sail away
But I'll never let you go
Sail away and someday
When you miss someone
I am home
And I'll never let you go
Never let you go

Ooh-ooh-ooh-ooh-ooh
Never let you go

And if the wind you need to fly
Will blow you home
Where you belong
I'm holding on
With open arms

Sail away, find the place
Where your heart belongs
Sail away
But I'll never let you go
Sail away and someday
When you miss someone
I am home
And I'll never let you go
Never let you go
