

Let's Sing (It's Christmas Time)

Måns Zelmerlöv

This holy night (O holy night)
Don't you wish the world was warm as you in life (mm, yeah)

We sit by the fire
Wrapped up in the joy it brings
Old songs by a choir
Merry Christmas, Merry Christmas
But what about lovers
Apart from each other this cold night
Tell someone who suffers
Merry Christmas, Merry Christmas

So let's sing for the broken hearted
Hoping for love again
And let's sing for the dear departed
For our family and friends
It's Christmas time, it's Christmas time
It's Christmas time and time to mend

Kind words and a blanket
A smile that can make a better day
Don't just say it, let's show it
Merry Christmas, Merry Christmas
This is more than a moment
Much more important than one day
When love is a movement
Merry Christmas, Merry Christmas

So let's sing for the broken hearted
Hoping for love again
And let's sing for the dear departed
For our family and friends
It's Christmas time, it's Christmas time
It's Christmas time and time to mend

This holy night (this holy night)
I am sending you my thoughts neighbors of mine
With all heart I promise I

I will sing for the broken hearted
Hoping for love again
Let's sing for the dear departed
For our family and friends
It's Christmas time (it's Christmas time), it's Christmas time (it's Christmas time)
It's Christmas time (it's Christmas time, yeah)
I know we'll find love again
It's Christmas time and time to mend

Merry Christmas
