

# Midsummer Love

Måns Zelmerlöv

Come on, let's start from the beginnin'  
18, we thought we were kings and queens  
We were broke, but we were winnin'  
Everythin' was a movie scene

We were just kids, we were so naive  
Drinkin' what we could've, our dads' whiskey  
Every little love was the end of me  
This is how it used to be

Back when we were younger  
Didn't have a care at all  
The days were so much longer  
That sweet midsummer love  
Every night a party  
Smokin' what we could afford  
Like it was never endin'  
That sweet midsummer love

Do you remember that old feelin'?  
The freedom of the damn car that kept breakin' down?  
Before the stress of gettin' older?  
Before a screen turned our lives around?

Glancin' at each other, so, so keen  
Love never hit harder than at 16  
Tryin' to impress, singin' Bruce Springsteen  
We were born to run so free, oh

Back when we were younger  
(Love) didn't have a care at all  
The days were so much longer  
That sweet midsummer love  
(Midsummer) nights out with fake ID  
(Love) drinkin' what we could afford (midsummer)  
Like it was never endin'  
That sweet midsummer love

I know I never wanna let it go  
I know I never wanna let it go  
I know I never wanna let it go  
That sweet midsummer love

(Midsummer) back when we were younger  
(Love) didn't have a care at all (midsummer)  
The days were so much longer  
That sweet midsummer love  
(Midsummer) every night a party  
(Love) smokin' what we could afford (midsummer)  
Like it was never endin'  
That sweet midsummer love

I know I never wanna let it go (hey!)  
I know I never wanna let it go  
I know I never wanna let it go  
That sweet midsummer love  
(Midsummer) I know I never wanna let it go

(Love) I know I never wanna let it go  
(Midsummer) I know I never wanna let it go  
Let it go (that sweet midsummer love), let it go
