

## Side Effects

Måns Zelmerlöv

Reach for you whenever I come loose  
That's just how god damn beautiful you are  
Closed my eyes, drift off to paradise  
And just for a moment convinced myself, "I'll be alright"

Here comes the shaking, I can't catch my breath  
My heart won't stop racing now, how do I always forget?  
And suddenly, I'm getting dizzy, it's tight 'round my chest  
Yeah, you killed the lonely now, how do I always forget?  
You come with side effect

La-da-dai, la-da-dai, ooh-ooh-ooh  
You come with side effect  
La-da-dai, la-da-dai, ooh-ooh-ooh

Time goes fast, I know that heights don't last  
Can't get off this merry-go-round  
One more hits, nothing else feels like this  
Wake up tomorrow, I'll do it all over again

Here comes the shaking, I can't catch my breath  
My heart won't stop racing now, how do I always forget?  
And suddenly, I'm getting dizzy, it's tight 'round my chest  
Yeah, you killed the lonely now, how do I always forget?  
You come with side effect

La-da-dai, la-da-dai, ooh-ooh-ooh  
You come with side effect  
La-da-dai, la-da-dai, ooh-ooh-ooh

I don't wanna want you  
I don't wanna need you  
Maybe I'm addicted every time I see you  
I tell myself that this time will be different

Here comes the shaking, I can't catch my breath  
My heart won't stop racing now, how do I always forget?  
And suddenly, I'm getting dizzy, it's tight 'round my chest  
Yeah, you killed the lonely now, how do I always forget?  
You come with side effect

La-da-dai, la-da-dai, ooh-ooh-ooh  
Oh, you come with side effect  
La-da-dai, la-da-dai, ooh-ooh-ooh
