

Sober (Mer för varandra)

Måns Zelmerlöw

So I hope we're more than texts a couple sms, another late booty calls
Giving me hope I'm more than sex, not a sub for your ex
It's so irresponsible
We could be more than that
I'm sure you know where I'm at
That I'm ready for something real
But I'm afraid to speak my mind
I'm scared that you will find I feel more than you feel
I know that you know that I know that you know

We've been riding this road for a while now
We've been up, down, out and about how
Will you be the one for me when the night's getting colder?
When we wake up and we're stone cold sober
Will you still be riding alone now?

We've been through the same, we've been naughty, we've been blamed
Been telling ourselves we failed
But the truth is more than that
Yeah. We lived where we were at
We just needed some time to play
I swore I wouldn't be fragile and let anyone in
No one could bring me down to my knees
But you just said the words they both healed and they hurt
And they come without guarantees
I know that you know that I know that you know

We're been riding this road for while now
We've been up, down, out and about how
Will you be the one for me when the night's getting colder?
When we wake up and we're stone cold sober
Will you still be riding alone now?

Will you be the one?
Will you be riding alone?

You are so hopeless
Baby, I am just the same
But I've got you and you've got me and I've got you
It's true
You are so hopeless
Baby, I am just the same
But I've got you and you've got me and I've got you
It's true

We're been riding this road for while now
We've been up, down, out and about how
Will you be the one for me when the night's getting colder?
When we wake up and we're stone cold sober
Will you still be riding alone now?
