

So Long

Mansfield.TYA

Can't we just forget the pain
It's been so long, so long since you came
I'm so tired of loneliness
It's been so long, so long since happiness

Can't we just forget the pain
Can't we just forget the pain
It's been so long, so long since you came
It's been so long, so long since you came
I'm so tired of loneliness
I'm so tired of loneliness
It's been so long, so long since happiness
It's been so long, so long

I don't want us to be in vain (It's been so long, so long)
I don't want to do this to you again (It's been so long, so long)
Can't we just forget the pain (It's been so long, so long)
It's been so long so long (It's been so long, so long)

I don't want us to be in vain (It's been so long, so long)
I don't want to do this to you again (It's been so long, so long)
Can't we just forget the pain (It's been so long, so long)
It's been so long so long since you came (It's been so long, so long)

It's been so long, so long
It's been so long, so long

I don't want us to be in vain
I don't want to do this to you again
Can't we just forget the pain
It's been so long so long since you came
I don't want us to be in vain
I don't want to do this to you again
Can't we just forget the pain
It's been so long so long since you came
I don't want us to be in vain
I don't want to do this to you again
Can't we just forget the pain
It's been so long so long since you came
I do love you with uncertainty
