

# Like Fire

Mansionair

Counting every last second  
And I'm trying to breathe  
Lose another moment  
Burning up like fire  
Like fire

Now I'm only guessing  
And the words are stuck on my teeth  
Move a little closer  
Burning up like fire  
Like fire

Oh all that you want from me  
All that you need need from me, baby  
Oh all that you want from me  
All that you need need from me, baby  
Just one single touch and I'm turning into gold

Counting every last second  
And I wanna believe  
We could do it over  
Burning up like fire  
Like fire

Don't know where I might be heading  
But I'm liking the speed  
Leaning on my shoulder  
Burning up like fire  
Like fire

Oh all that you want from me  
All that you need need from me, baby  
Oh all that you want from me (I can feel your heartbeat)  
All that you need need from me, baby (Leaning on the backseat)  
(Tell me that you want me)  
Just one single touch and I'm turning into gold  
To gold, to gold  
To gold, to gold  
To gold, to gold

Oh all that you want from me (Leaning on the backseat)  
All that you need need from me, baby (Tell me that you want me)  
Oh all that you want from me (I can feel your heartbeat)  
(Leaning on the backseat)  
All that you need need from me, baby (Tell me that you want me)  
Just one single touch and I'm turning into gold
