

Shadows

Mansionair

The streets are quiet
And my heart feels like fire
So I guess you play
The waiting game
Make no mistake
My heart lies awake
Down the tunnel I made
I can feel this way
For you, for you

I'll keep running from my shadow
Hide from the sun, I won't be found
Everywhere I go it follows
I find my feet when I'm off the ground
And I keep on running from my shadow
Hide from the sun, I won't be found
And everywhere I go it follows
I find my feet when I'm off the ground
And nowhere, running from my shadows
Oh nowhere, running from my shadows

The streets are quiet
And it feels so right
To be out of line
Like the shape of my face
For you, for you, for you

And I'll keep running from my shadow
Hide from the sun, I won't be found
And everywhere I go it follows
I find my feet when I'm off the ground
And I'll keep running from my shadow
Hide from the sun, I won't be found
And everywhere I go it follows
I find my feet when I'm off the ground
And nowhere, running from my shadows
Oh nowhere, running from my shadows
Oh nowhere, running from my shadows
Oh nowhere, running from my shadows

We're so out of line
We're so out of line
We're so out of line
We're so out of line
