

Technicolor

Mansionair

We dive into the blue
I can't hold onto you
Staring the illusion in the eye
And when the colors blur
We forget who we were
And all we need is technicolor

And I lost my grip
And all we need is technicolor
I give into it

We were in love
We were in love
Oh, we were in love
We were in love
And all we need is technicolor

We dip into the pool
Cold water covers you
It's draining all the color from your eyes
And as we start to fade
Your lips they turn to grey
When all we need is technicolor

And I know my lack of love will drown itself
And I know I cannot keep what wasn't found
Cause the fire's out that used to burn in me
Close your eyes to see what's really happening

We were in love
We were in love
Oh, we were in love
Oh, we were in love
And all we need is technicolor
And all we need is technicolor
And all we need is technicolor
