

Fade In Time

Mansun

All my rage is hollower than its been
My defences got the best of me
I'm reserved to fade with time

And I'll fade with time
And I'll fade in time
And I'll fade with time
I'll move on in time

What I thought was permanent is a sham
It's disappearing from underneath of me
Everyone will disappear

And I'll fade with time
And they'll fade in time
And they'll fade in time
I'll be gone in time

Get my smarted, everyone let me down
I saw them crumble right in front of me
I accept this fate as mine

They'll fade in time
And they'll fade in time
And they'll fade in time
I'll be gone in time

And they'll fade with time
And they'll fade in time
And they'll fade in time
And they'll fade in time
And they'll fade in time
And they'll fade in time
And they'll fade with time
Move on in time

And they'll fade in time
