

# Promises

Mansun

We were a joke, we were fools  
Such a disgrace, but I was used  
You never kept your promises  
But I still believed you  
You lied and you cheated  
You stole my belongings and threw me away

Believed anything that you said  
Put all those doubts in my head, what a loser  
Stick around cause life is too short, you said  
You said we could still be friends  
You lied to me again  
You said we could still be friends  
You never kept your promises  
Kept those promises

Don't change the world, that's what you said  
But don't hold a grudge is what you meant  
I, I'm reconstructed  
With or without you, in spite of our difference  
I'm walking away

Believed anything that you said  
Put all those doubts in my head, what a loser  
Stick around cause life is too short, you said  
You said we could still be friends  
You lied to me again  
You said we could still be friends  
You never kept your promises  
So keep those promises

We were a joke, we were fools  
Such a disgrace, but we were used  
And now I've found you said it goes for  
For the millions that you'll never use

Anything that you said  
Put all those doubts in my head, I'm a loser  
Stick around cause life is too short, you said  
You said we could still be friends  
You lied to me again  
You said we could still be friends  
You lied to me again  
You said we could still be friends  
You never kept those promises  
Kept those promises  
So we can move on
