

Secrets

Mansun

Anytime you need a friend
Anytime at all
If you can keep my secret friend
You can be my god
Anytime you need a friend
Anytime at all

Let me show you a secret
Let me take you again
If you want a piece of the action
I'm the one you have to tell

Something drags me in
Something drags me in
Something drags me in
Something drags me into love
Won't you tell me a secret

Anytime you need a friend
Anytime at all
If you can keep my secret friend
You can be my god
Anytime you need a friend
Anytime at all

Let me show you a secret
Let me take you again
If you want a piece of the action
I'm the one you have to tell

Something drags me in
Something drags me in
Something drags me in
Something drags me into love
Won't you tell me your secrets

Now anytime that you're concerned
Just give it time and give it up
All my secrets
That they know that it's true
Just keep repeating
If you know that it's true
And tell my secrets
If you know that they're true
Just keep repeating
That you know that it's true
