

Slipping Away

Mansun

No no no this isn't happening
So I drink myself into a state
Wherever you bring love you bring conditions
And so I drink to make you go away

My fear is slipping away from me
My lazy feeling filling my skin
My doubts are slipping away from me
My conscience keeps on saying move on
Move on
Move on
Come on baby move on

My bones have broke and left me shattered
And my thoughts keep going off the rails
Whenever you brought love you brought restrictions
And so I drink to make you go away

My fear is slipping away from me
My lazy feeling filling my skin
My doubts are slipping away from me
My conscience keeps on saying move on
Move on
Move on
Come on baby move on

My fear is slipping away from me
My lazy feeling filling my skin
My doubts are slipping away from me
My conscience keeps on saying move on
Move on
Move on
Come on baby move on

Move on
Move on
Move on
Come on baby move on

Move on
Move on
Move on
Come on baby move on
