

## These Days

Mansun

These days I don't look back  
All my fears are gone  
I don't care  
They're in a box in my head  
Like the one I keep in my room

All the people that I love  
They don't carry their own weight  
I've never lied to save my skin  
These days  
I don't ever look back  
These days  
I don't carry no weight

These days I've paid off my debts  
So I don't care that much  
And by now stopped mixing my drinks  
Cause I feel less like an orphan

All the people that I love  
They don't carry their own weight  
I've never lied to save my skin  
These days  
I don't ever look back  
These days  
I don't carry no weight

I've never lied to save my skin  
I've never blamed somebody else  
These days  
I don't ever look back  
These days  
I don't carry no weight  
These days  
After all I've been through...
