

Everyday

Manu Crooks

Everyday... niggas really get bigger and bigger

I been working I don't need no holiday
When they see me bet they catch the harlem shakes
I know you see me shining from a mile away
You know I do this everyday!
Everyday, everyday
Me and my squad, we don't play
Roll up to the club and pour some chardonnay
You know I do this everyday

We don't really mean to be flexing
Got a merc' but I roll with Alexis
I do not chase and I show no love but I see a couple O's with my X's
I been down my whole life and I'm still tryna build like tetris
The boy so fly but down to earth like ancestors
Hol up
I been tryna whip but my whip broke down
I been tryna settle but the bitch go down
I been tryna tell these niggas that I'm back and I ain't going nowhere cause
I been so wild
Been so wild it's been a while now
Look at all these people on my dick now
Back in high school, I couldn't get a bitch now they all want a piece now, g
ood lord!

I been working I don't need no holiday
When they see me bet they catch the harlem shakes
I know you see me shining from a mile away
You know I do this everyday!
Everyday, everyday
Me and my squad, no, we don't play
Roll up to the club and pour some chardonnay
You know I do this everyday

Rolling with the squad, that's everyday
They blowing up my phone, that's everyday
I'm working on the low, that's everyday
I put on for my city and that's everyday

Wake up in the morning, man I gotta get it
I don't waste time, meant it when I said
I'm not the one to call like I'm out of credit
You know my last name Adu like I'm at a wedding
I don't pay mind, don't tax me
If you ain't my girl, don't stress me
If you ain't with the clique then you ain't with the biz bitch
Please don't call or text me
'cause i'm working on the daily swear to God I can not pretend
Gotta be outstanding that's the reason we do not attend
I'm aiming for the stars that's the reason we do not descend
And everyday we pray the lord becomes our closest friend (God damn)

I been working I don't need no holiday
When they see me bet they catch the harlem shakes
I know you see me shining from a mile away
You know I do this everyday!

Everyday, everyday
Me and my squad, we don't play
Roll up to the club and pour some chardonnay
You know I do this everyday
