

Fall Apart

Manu Crooks

When I left alone
Spent a couple hours on my own
I called you late night
You said you wanna know
What we are
What we isn't
I gotta duck it, I go off
Know we gon make it, we go hard
Let's take it right to when we ended things
We never thought that we would ever fall apart

Can't tell me fibs bout, how talents beating all the hard work
Coz there been days and nights
I felt like this shit might not work
I can't do groupies
So many hoes wanna see how the pipe work, light work
When I brought dick and food to the table
She got excited
There's no hood, in the world that a nigga can't go
Looks like they've thrown all my people
In the jungle
Same struggles
They benefiting of the culture
I don't wanna hear about fronting lawyers
And still I got my day ones
Just to look out for these, for these, for these
Vultures, nonsense
Can't paint me as the monster
Sponsors, can't pay enough for a soldier
Obvious, couldn't face up to my audience
Black and Aussie
Like saucy, bossy
Can't tell me bout nothing
Swerving bitches often
My enemies watching coz they love me

When I left alone
Spent a couple days all on my own
I called you late night
You said wanna know
What we aren't
What we isn't
I gotta duck it, I go off
Know we go make it, we go hard
Let's take it right to when we ended things
We never thought that we would ever fall apart

You see the calm, I kill the noise
They do the most to fill the void
She threw me signs that read I'm all yours
Said fuck the love, I want the loyalty

You miss my call
You never called
I'm too persistent for ya
Got a soft spot for ya
You get suspicious bout us

Although I been on the road
Just know we been on the go
I never been one to fold
Couldn't be that boy went told

Can't cross in nigga in ISO
Me and my bitch and my riffle
When aunty got me a bible
Told me, to read and practice what I'm preaching
What we believe in
Fuck the system
We do not conceive in
Tweaking
400 years, and still grieving

When I left alone
Spent a couple hours on my own
I called you late night
You said you wanna know
What we are
What we isn't
I gotta duck it, I go off
Know we gon make it, we go hard
Let's take it right to when we ended things
We never thought that we would ever fall apart
