Getting topped off with the top off
Green light
Swerving down the M4
They don't know what they in for

Top four
Not four
Know that I deserve it but really I want more
Swerving down the M4
Talking top speed, who can stop me
Top boy, I'm a Top Bloke

My benzo was just navy, man that old ting drove me crazy
Think I like crazy, cause her face I keep on painting
And what you saying? I want double what they paying
Unless I gave it, there's no way that they'll be taking
And if we said it brudda just know that we really mean it
I really seen't it
We really lived it
Don't matter seasons
If it's bout business
Shoulda told us from beginning...

This black Jeep got me wavy
Can't believe I want the latest still
Can't be the greatest
If I'm feeling like I made it
I'm on this journey
Nothing to prove, bitch I'm so certi
These racist faces
God, I'm praying that you bless it
Bless em
Life full of lessons
Weapons
Did it still cursing
Fuck em'
Can't tell me nothing
Nothing
I turn to something

Fuck all the suffering
I need all my people living
Know we some sinners
Who am I to be forgiven

See me found my way, sort've done it
This road I cruise n hope, it's automatic
Whoever's in my way, it's gotta...
I took the top right off and it's sunny
