

Touchdown

Manu Crooks

I just touched down, know it's late, yeah
I hit your phone up, I'm on my way
No matter what the vibe we be rollin
'cause she don't really care about her heart stolen
Look
I hate it when you switch off, switch off
So get down like you don't know I'm that nigga
In my feelings
I been sipping too much liquor
She's like, you the man right?
You got a plan, right?
Never do you wrong, but always see me wrong, right?
When it's over you gonna keep your word, right
You talking reckless, and so it's just a that fight

Hundreds of miles from me to her
Just touched down, and know it's late
Haven't see you and I need your love
Just touched down and know it's late
Uber straight to your place
Baby I'm not here to play
Just touched down and I know it's late
Uber straight to your place

She come by, she get undressed yeah
Touched down and I get a text, yah
You the one, like the champ yeah
Who you ride about to rest ya
Not even tryin' to flex ya
Look
Straight up, straight up
You ain't gotta wait up
I know we made plans, but I'm also with the paper
You got me reminiscing, the kissin and the touchin
Never catch me fallin' because I'm duckin' all the feelings, yeah
A lot of woman, yeah
Think I'm playing, yeah
Why the boy so fly
Now I'm at your place
You all up in my face
We can just get high
Wild sex on the top floor, yeah
You butt naked and you want more, yeah
I give it to you how you want it
We put the lights out make it all about the sun, yeah

Hundreds of miles from me to earth
Just touched down, and I know it's late
Haven't see you and I need your love
Just touched down and I know it's late
Uber straight to your place
Baby I'm not here to play
Just touched down and know it's late
Uber straight to your place

Damn my baby
Damn my baby

Damn my baby
Got me wrapped around
Damn my baby
I won't hesitate to show you all around
Damn my baby
Damn my baby
Damn my baby
Got me wrapped around
Not really about that, no

Baby I'm not here to play
Just touched down and I know it's late
Uber straight to your place
Baby I'm not here to play
Just touched down and I know it's late
Uber straight to your place
