Lies

Wrapped up in the sheets that stole me  
Caught up in a cause so holy  
Feasted on my sins like prey

My

Skin don't feel like how it used to  
Why little features like you do  
Now I know that I did it the wrong way

And I would sit and pray  
That one day you'd go away  
Ay  
And take the pain away

Like amen

Este es nuestro momento, dame una oportunidad  
Baby, tú me haces tan feliz, hagámoslo una vez más  
Quisiera volver a respirar el aire que tú me dabas

Yo me olvidaría de todo, ah  
Por ti lo volvería a hacer, y  
Te llevaría conmigo a todas partes

Hariámos lo que nos diera la gana  
Iriámos a la playa a surfear  
Juntos, nos reiríamos juntos

Say amen

Say amen

Tripped over my heart on the floor 'cause it wasn't beating  
Filled up my head with these lies so I could believe it  
Made some mistakes, I don't let them haunt me  
I took the bait till somebody stopped me  
Couldn't betray who I thought I'd be

I, I hold my self and say

Say amen

Say amen

Amen
