

# Dancefloor

Manuel Riva

Dancing on the beat when there is no one around  
Your body on repeat like the song won't turn it down  
Tell me what you see I'm losing my mind for now  
I've been on the dance floor

Dancing on the beat when there is no one around  
Your body on repeat like the song won't turn it down  
Tell me what you see I'm losing my mind for now  
I've been on the dance floor

I want you to look me into my eyes  
You're craving the same thing baby don't lie  
Ever thought of a movie inside your mind?  
Take it, baby. No good in my goodbye  
I'm on the way to tomorrow unless you've gone cold  
I have a feeling you'll follow, I'm someone you want to hold  
Kiss you on your body, let's get a little naughty  
But all that after I'm finished up on the dance floor

Dancing on the beat when there is no one around  
Your body on repeat like the song won't turn it down  
Tell me what you see I'm losing my mind for now  
I've been on the dance floor
