

Machines

Manuel Riva

Let's take a ride, you can decide
You need just show me the way and I'll abide
No I don't mind, no need to hide
I can tell by your skill you're qualified

I won't retire, drive through the fire
I got all the equipment that you require
Yeah I've been trying, nah I ain't lying
It's like you fucked up my circuits, I'm rewired

I won't retire, drive through the fire
I got all the equipment that you require
I've been trying, nah I ain't lying
I'll give you love electrifying

Love electrifying
