

Sick Love

Manuel Riva

I talked in my sleep last night
Can't forget you were my beating heart
Tell the world that I'm fine
Tell the world that I'm fine
But I'm not

I'm flying in the wrong plane
You know trouble is my middle name
Tell the world that I'm fine
Tell the world that I'm fine
But I'm not

I think about you, you
I think about you, you

Go to bed, go to sleep
Underwater I cannot breathe
Overdose, overbleed
A sick love is what I need
Go to bed, go to sleep
Underwater I cannot breathe
Overdose, overbleed
A sick love is what I need

I stay sad just for my art
I can't pretend we're not worlds apart
Thought we're partners in crime
Thought we're partners in crime
But we're not

In my bed you look so fine
It's why I come back to you every time
Thought we're partners in crime
Thought we're partners in crime
But we're not

I think about you, you
I think about you, you

Go to bed, go to sleep
Underwater I cannot breathe
Overdose, overbleed
A sick love is what I need
Go to bed, go to sleep
Underwater I cannot breathe
Overdose, overbleed
A sick love is what I need
