

Slow Motion

Manuel Riva

Oh Lord
We've been fighting for way too long
Animosity has grown so strong
Don't choke me anymore

Stay here
We act like animals that escape regret
Scars on my skin that won't go away
We'll mend this face to face

The law of gravity predicts my fall
Here I am
Flying towards the sun
I'm great in my insignificance
Here I am
Asking you to take chance

Our love's a phoenix up in flames
We cry to ease the pain
And like a phoenix up in flames
We'll survive this
808
It's all slow motion from here

We can play along only it feels right
Act like animals only it feels right
Take it down a notch only it feels right
It's all slow motion from here
We can play along only it feels right
Act like animals only it feels right
Take it down a notch only it feels right
It's all slow motion from here
It's all slow motion...

These days
We keep weathering storms and rain
I'm so over these broken wings
We'll mend this face to face

The law of gravity predicts my fall
Here I am
Flying towards the sun
I'm great in my insignificance
Here I am
Begging you to take chance

Our love's a phoenix up in flames
We cry to ease the pain
And like a phoenix up in flames
We'll survive this
808
It's all slow motion from here

We can play along only it feels right
Act like animals only it feels right
Take it down a notch only it feels right
It's all slow motion from here

We can play along only it feels right
Act like animals only it feels right
Take it down a notch only it feels right
It's all slow motion...
