

We Are One

Manuel Riva

I just can't get enough of this place
Like everyone else around
All I see is one soul and my face
It feels like we are one

I just can't get enough of this place, yeah
Like everyone else around
All I see is one soul and my face
It feels like we are one

It feels like we are one

Doesn't it feel like we are one?
That's the life we're running for
Doesn't this feel like we are one?
The one

Millions of people singing loud
With their hands up in the sky
Doesn't it feel like they are one?
The one

I just can't get enough of this place
Like everyone else around
All I see is one soul and my face
It feels like we are one

I just can't get enough of this place, yeah
Like everyone else around
All I see is one soul and my face
It feels like we
It feels like we are one

(We are one
We are one
We are one
We are one
We are one
We are one)
It feels like we are one

I just can't get enough of this place, yeah
Like everyone else around
All I see is one soul and my face
It feels like we are one

I just can't get enough of this place, yeah
Like everyone else around
All I see is one soul and my face
It feels like we are one

(We are one
We are one
We are one
We are one
We are one
We are one)

We are one)
