Drops

Mapei

There once was a little drop
That fell from the sky
One out of many drops
In clouds passing by
When the clouds turn to gray
The drop said goodbye
It was a time to fall
The cloud said goodnight

She fell down onto my roof
Moved off it slow
She stuck on my windowsill
And I said "hello"
It's almost sleepy time
And where do drops go
Do they just swim away
When I close my eyes

If I was the drop
You'd be the sea
If I was the night
You'd be a dream
If you're a city
And I'm on a street
As I turn off the light
Watch over me

If I was the drop
You'd be the sea
If I was the night
You'd be a dream
If you're a city
And I'm on a street
As I turn off the lights
Watch over me
