

## I Dream of Crystal

Maps

So, let me begin by laying down the state we're in  
With the pills and the gin, I can handle bout anything  
But this is out of control  
Do what you like to me, but please don't hurt her man  
Cos I will hit you, hard as I can  
But that ain't really the plan you see

Please don't get me wrong but you can't knock what you've never  
done  
It ain't always fun but at least you'll be living some  
So get the fuck off my case  
Yeah, she is a legend, man I don't doubt that  
And I will screw it up, I'm used to that  
As the radio plays

You can't change this way of life  
You can't change this state of mind
