

Love Is Not on Trial

Marc Almond

Love is not on trial
Don't act like it's aware
The jury of my peace
Here at the frontier

Produces their little close
And of all I stand accused
I will assume
That innocence is safe
To woman guilty Brute
Until you do

I don't recognise this Court (don't recognise this Court)
I think the judges have been bored (the judges have been bored)
I'm here to feast the charge
From those that I have loved
Who say I haunted them for sport (haunted them for sport)

They can so may be fine
I'm telling you this time
I may be a sinner
But a sin is not a crime

Oh, his legless for revenge
For they selfish little end (selfish little ends)

All you people should have known (I can't stand to be alone)
Loyalty alone cannot surprise (loving, love my only vice)
Yet you looking so confused
As for their body have been used
Oh, but that's not how it is (this is what to you)

I've waisted my whole life
To say to you goodbye
Every day I know the darkness
And I feel it may be final
And the definite relights
Just one look wrapped around me and I need someone tonight

But love is not on trial (live is not on trial)
Love is not on trial (love is not on trial)
No love is not on trial (love is not on trial)
Anymore
