

# My Porno Star

**Marc Almond**

Come on to my casting couch and be my porno star  
Come out in my video, I've loved you from a far

How I played your money shots on replay and on board  
Come into my movie house and bath in my applause

You can be my dreamer icon, as long as I don't turn the light on

You can burn forever in my memory

You could help the void between the glass of celluloid

You performed, to turn me on and then you're gone

Then you're gone, gone, gone

Gone, gone, gone, oh, to turn me on and then you're gone

Come on to my satin bed and look me in the eye

My electronic cupid even after you die

Come and be my porno star when night is on my mind

You turn me on, I turn you off until another time

You'll be a love that never ages, only once I pay your wages

Choose the image new, before the video

Your life is making love for others, never see your memory lovers

Thought to turn me on and then you're gone

Gone, gone, gone, oh, to turn me on and then you're gone

Gone, gone, gone, oh, to turn me on and then you're gone

And the you're gone, gone, gone

Gone, gone, gone

It's all turned to autumn and then you're gone

And then you're gone, gone, gone

It's all turned to autumn and

Then you're gone, gone, gone

Gone, gone, gone
