Things We Lost

Marc Almond

Things we lost are always with us
The angry words, time will forgive us
To pray is waste
No god to hear us
The things we lost are always near us
And you are always mine

Love you forever, you forever
Until all the time has gone away
With you forever, you forever
Forever and a day

Bury sadness in our hearts
Look for light around us
Let's not rest until we know
Eternal peace has found us

As we stare into the glass
To gaze at our reflections
The things that never leave us
Have gone in new directions

Though your happiness eludes you
Don't seek lost horizons
Although all our hearts are broken
And all of time is frozen

Love you forever, you forever
Until all the time has gone away
With you forever, you forever
Forever and a day

Things we lost, they never leave us
Things we said, who will believe us?
Gone in vapour
Gone in smoke
Forgotten like a last year's joke
Like a child who Christmas lost

We know it's worth
Forget its cost
Things we lost, they never leave us
And you are always mine

Love you forever, you forever
Until all the time has gone away
With you forever, you forever
Forever and a day

Things we lost, they never leave us
Always missed, but never leave us
Like a toy held by a child
We were dazzled and beguiled
