

2 Much

Marc E. Bassy

It's too much, never too much
Baby sing like Luther when we touch
All it take one touch
I do something to you

Too much, never too much
Baby seem like Luther when we touch
All it take one touch
I do something to her

Let me put a rock right on your shooter
Pull up on me I do something to you, you like
Baby, say boo'd up I might
Someday in the future
Got a premonition that you like it in submission
You a boss all day, but tonight you're living
If it cost all day, I'm gonna keep the spending

It's too much, never too much
Baby sing like Luther when we touch
All it take one touch
I do something to you

Too much, never too much
Baby seem like Luther when we touch
All it take one touch
I do something to her
