

Aquemini

Marc E. Bassy

I need that good good chem like Aquemini
Fat ass with the bougie eye
Pull up on me like durant in five
Drove her crazy but she let me ride

I need someone that knows everything I'm trying to be
Someone that loves all this fucking crazy in me

I need that body on the interstate
Let's quit drugs and let's go runaway
Yea your daddy he ain't one to play
I fucked around and bought a thang today
And if love should have us
Two hopeless romantics
In an inner panic falling frantic
Cause ain't no way to plan it
Fallin with you

I need someone that knows everything I'm trying to be
Someone that loves all this fucking crazy in me

Someone take my hand in her hand
Someone take me just as I am
Someone take my hand in her hand
Someone take me just take me just as I am

I need someone that knows everything I'm trying to be
Someone that loves all this fucking crazy in me

Someone that's there to pick me up when I get knocked to my knees
Someone that loves all this fucking crazy in me

Ooh I'm trying
Ooh I'm trying
Ooh I love it
Ooh I love it

Ooh
Trying
Love it
