

Change My Ways

Marc E. Bassy

Hit the road for a couple months
Watch the money and recording funds
In the game so I'm scoring some
When I'm up, I could foot the bill
But when I'm down, I know how to steal
Too much of either and I'm in my feels

Vibe-puller, I get bipolar
Hot, cold like a high roller
Always gonna be a baddie that I'm getting over
If you wondering, you probably know her

And you know that, I can't leave you alone
Oh you know I'd die just to bring you back home
Said, I can't leave you alone
Baby my pride has always been too strong, yeah

I don't pay my taxes like I'm Trump
On the ride, hit a couple bumps
Yeah, I loved her, what a damn shame, ay
'Til she tried to change her last name
Why my minds always playing games

Vibe-puller, I get bipolar
Hot, cold like a high roller
Always gonna be a baddie that I'm getting over
If you wondering, you probably know her

And you know that, I can't leave you alone
Oh you know I'd die just to bring you back home
Said, I can't leave you alone
Baby my pride has always been too strong, yeah
