

# Chemical High

**Marc E. Bassy**

I told all my systems to go, go  
You done made the room spin so slow, yeah

It's just a chemical high that I'm feeling  
Love still burning in my brain [x4]

The smoke cloud is in full effect  
Stoner raps I used to love to slap  
Lately I've been growing up  
I ain't slowing down, that shit's a trap  
My cup, yeah, over runneth with  
The ability to stomach it  
Hollywood at half time  
That whiteboy that's dunkin' it  
Look how all the stars align  
Precious moments when you get signed  
But better when you get back up  
Take it for yourself this time  
These people they don't give a shit  
They head bob, that's sucking dick  
That same cat they fucking wit'  
They'll drop his ass  
They don't notice it  
The don't give a shit  
Are you serious?  
You funny Eddie, delirious  
You money team like Mayweather  
Bet against us and then pay later  
In a tent somewhere in Nor Cali  
Where the green grow, maybe Mill Valley  
I've been everywhere, I rep it all proudly  
I got killers to, I can talk loudly  
I was that kid when it got rowdy  
I make a call, and now who clowning  
Haha, there's two down  
Now I gotta calm all the troops down  
Peace keeping here for the evening  
But an instigator since I was breathing  
Just so I can see who means it  
It's entertainment they all dreaming
