

Feel Different

Marc E. Bassy

You wouldn't ride for me
Knowing all the ways that I tried to be
Someone that would make you feel different
Someone that would make you feel different
And all that time in bed
Loving on your body got you fucked in the head
I was tryna make you feel different
Just tryna make you feel different

Sunday morning you won't catch me girl
I'm gone
It was nice to know you
Would've stuck there all along
But I tried to show you
Man I tried, I tried to make you feel different
Feel different
Yea its complicated
I can't act like you was wrong
Girl I'm always faded
And I'm never really home
But we could've made it
Yea we maybe maybe could've been different
Just maybe
You wouldn't ride for me
Knowing all the ways that
I tried to be

Someone that would make you feel different
Someone that would make you feel different
And all that time in bed
Loving on your body got you fucked in the head
I was tryna make you feel different
Just tryna make you feel different

Not for nothing, you NY till you die
And in california maybe it's a different vibe
On the hudson river
Could've really changed the coast for a minute just a minute
Ooo I saw it coming, we were living separate lives
There's a time limit where you always in disguise
Tried to ride with it
But I always knew that there was a limit just a limit
Girl you got the sign that makes you twoface
And I got the one that's always on the chase
Maybe it's my pride but maybe I was always driven

You wouldn't ride for me
Knowing all the ways that I tried to be
Someone that would make you feel different
Someone that would make you feel different
And all that time in bed
Loving on your body got you fucked in the head
I was tryna make you feel different
Just tryna make you feel different
