

Four Leaf Clover

Marc E. Bassy

Time after time, we grow closer
You open me wide, my past got closure
You quiet the mind when it's not sober
The rarest of love, a four-leaf clover

Emerald stones in your grill
Smile worth a hundred mill (a hundred million yeah)
Oh you know I love your grin (I love love love)
Only thing that makes me sin and come again

I don't worry 'bout the past
All the shit that didn't last (it didn't last)
I just wanna fall in (fall in yeah)
Think I hear you calling

Time after time, we grow closer
You open me wide, my past got closure
You quiet the mind when it's not sober
The rarest of love, a four-leaf clover

Look at me
I gotta let it break
Baby you make my bed
I still carry the weight [?]

Shake, shake, shake, shake
Drop, drop, drop, drop
Shake, shake, shake, shake
Drop, drop, drop, come on come one
Shake, shake, shake, shake
Drop, drop, drop, drop
Shake, shake, shake, shake
Drop, drop, drop, come on come one

Can't wait forever
Can't wait forever
Can't wait forever

Look at me
I gotta let it break
Baby you make my bed
I still carry the weight [?]

Time after time, we grow closer
You open me wide, my past got closure
You quiet the mind when it's not sober
The rarest of love, a four-leaf clover
