

Future Love

Marc E. Bassy

Whippin in a foreign
Oooo this life boring
Stuck on auto pilot
Wanna drive it like its stolen
Perfect little frame on you
Wonder if you paid for it
Oooo it's so natural
Baby we were made for it

Oooo
Welcome to your future love
Pretty for a robot
Oooo
Welcome to your future love
You know that I'm a sure shot

Ima thank the stars if I get to
Be the one you lay next to
I know we ain't the same but I get you
I can read your mind girl I'll bet you
I'll never understand what you went through
Or the things you saw your ex do
But I can break you off like the rest do
You can break my heart if I let you

Oooo
Welcome to your future love
Pretty for a robot
Oooo
Welcome to your future love
You know that I'm a sure shot

Drink all night
Never hungover
The light in your eyes
Never gets colder
We never define
We never need closure
Ooo a love harddrive
We could always start over
Two kids and a mortgage
Ooo this life boring
Percocet and white wine
When you wake up in the morning
Mama was a dead head
Could've gone touring
But she lived in the real world
No time to go exploring

Oooo
Welcome to your future love
Pretty for a robot
Oooo
Welcome to your future love
You know that I'm a sure shot

Oooo

Welcome to your future love
Pretty for a robot
Oooo
Welcome to your future love
You know that I'm a sure shot
