

# Hold On

**Marc E. Bassy**

Got to keep these records on, yeah-yeah  
So we can keep it moving now  
Happiness, where we belong, yeah-yeah-yeah

I know now  
You see me in a different way  
We've been going through some changes  
Yeah, pass a drink and fall in love  
You and I, we're taking off  
Hold on to me

Hold on to me  
Hold on to me  
Don't let me get away  
Hold on to me  
Don't, don't let me get away  
Hold on to me

It was warm like a summer night  
When I met you  
You were dancing in pale moonlight  
It was special  
I was high as a kite back then  
Out of focus  
But you came and gave hope to the hopeless

What I find in you  
It make me feel like all my dreams came true  
Don't let me get away  
Hold on to me

Hold on to me  
Hold on to me  
Don't let me get away  
Hold on to me  
Don't, don't let me get away  
Hold on to me

Hold on to me now  
Don't let me get away  
We on demon time  
But an angel in my face  
Hold on to me now  
Don't let me get away  
I only wanna love you  
I don't care where you stay
