

Keep Your Faith

Marc E. Bassy

I see you on the cover of a magazine
Spread, it pulls me under to a dirty dream
And is it any wonder?
Life ain't what it seems
Melting in the silver screen, yeah

You keep your faith in love
Until you find another way
You use the sex and drugs
Turn into debts you've got to pay
You keep your faith in love until you thought
That it was all inside your heart
That it was all inside your mind (Ayy!)

Oooh, I wanna be with you
I'm living in a fantasy
I'm tryna make it true
Wait, I wanna be with you (Oh yeah)
I'm living in a fantasy
I'm tryna make it true

I'll see you on the corner dripping vaseline
Slipping through my finger, never what it seems
The apple of my eye turn the cellulite at night
Don't mind the poison take a bite, yeah

Keep your faith
Keep your faith
Ke-keep your faith
Keep your faith
You keep your faith in love (In love, in love)
You keep your faith in love (In love, in love)

You keep your faith in love
Until you find another way
You use the sex and drugs
Turn into debts you've got to pay
You keep your faith in love until you thought
That it was all inside your heart
That it was all inside your mind
You keep your faith in love
Until you find another way
You use the sex and drugs
Turn into debts you've got to pay
You keep your faith in love until you thought
That it was all inside your heart
That it was all inside your mind (Ayy!)

Oooh, I wanna be with you
I'm living in a fantasy
I'm tryna make it true
Wait, I wanna be with you (Oh yeah)
I'm living in a fantasy
I'm tryna make it true
