

Levels

Marc E. Bassy

I can say that I tried and couldn't reach the level
But I'm out on a high and I can see the level
Flying over stars, it's like I need the level
I guess I'ma keep trying 'til I reach the level

I just want you satisfied
I know your potential and I know what you get into
Be with you every Friday night
Stick with me, I promise you, you know I got the spark for you,
babe

I been falling, going in, it's my time
Don't be stalling me, stalling me, don't fight it
Gotta get up, I got it, I'm all go and
I could settle, but I gotta grow

I can say that I tried and couldn't reach the level
But I'm out on a high and I can see the level
Flying over the stars, it's like I need the level
I guess I'ma keep trying 'til I reach the level

Same dream, different night
Tryna get a grip on my reflection, but I slip
And I still hope you know I'm on the line
You can always reach me even when I'm out your reach and oh, ye
ah, yeah

I'ma fall in, go all in, and start trying
Don't be stalling me, stalling me, don't fight it
I'ma get up, I got it, I'm all go
I would stay here, but I gotta grow

I can say that I tried and couldn't reach the level
But I'm out on a high and I can see the level
Flying over the stars, it's like I need the level
I guess I'ma keep trying 'til I reach the level

Tried but couldn't reach the level
But I'm out on a high and I can see the level
