

# Main Chick

Marc E. Bassy

That my main chick, that my main  
That my main chick, yeah, yeah, yeah

That my main chick, that my main bitch  
Got a couple on the side that I hang with  
That my main chick, that my main bitch  
Got a couple on the side that I hang with  
But you the one, baby, you the one  
Only one that know where I'm coming from  
But you the one, baby, you the one  
Only one that know where I'm coming from

I was on the sidelines, I didn't wanna try  
You the only one that made me want a better life  
All these people, they don't know what it's been like  
Tryna come up on the other side  
But if I say it, then I did it  
I'ma always stay committed  
Let's share this cancer stick  
Grinding on me like a dancer bitch  
You the only text I'm answering

That my main chick, that my main bitch  
Got a couple on the side that I hang with  
That my main chick, that my main bitch  
Got a couple on the side that I hang with  
But you the one, baby, you the one  
Only one that know where I'm coming from  
But you the one, baby, you the one  
Only one that know where I'm coming from

Like woo, lover, lover  
I be like Shaggy every time I get in trouble  
She caught me banging on the counter, it wasn't me  
Saw me banging on the sofa, it wasn't me  
Even caught me on camera  
But you know the answer, she was just a dancer

That my main chick, that my main bitch  
Got a couple on the side that I hang with  
That my main chick, that my main bitch  
Got a couple on the side that I hang with  
But you the one, baby, you the one  
Only one that know where I'm coming from  
But you the one, baby, you the one  
Only one that know where I'm coming from

Yeah, you're my  
A couple on the side  
Couple on the side

That my main chick, that my main bitch  
Got a couple on the side that I hang with  
That my main chick, that my main bitch  
Got a couple on the side that I hang with  
But you the one, baby, you the one  
Only one that know where I'm coming from

But you the one, baby, you the one  
Only one that know where I'm coming from
